

Bay Street Utility Relocation Project

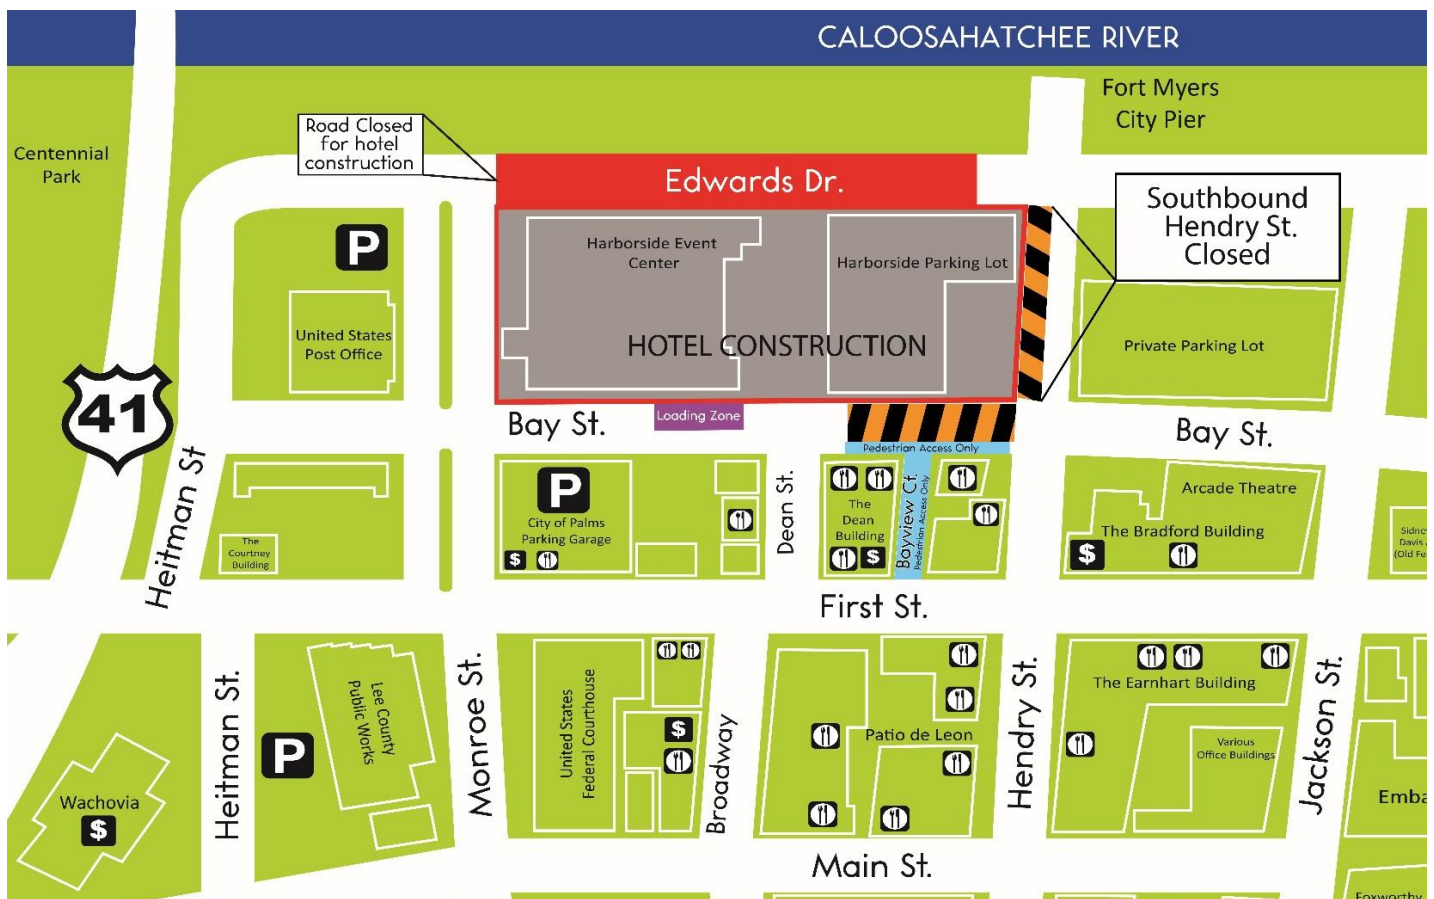

Look Ahead for 12-10-18

Changes in red

Bay Street between Dean Street and Hendry Street and the southbound lane of Hendry Street from Edwards Drive to Bay Street remains closed this week while crews install underground conduit and pave both areas. Through motorist should follow detour signs. These closures will remain in place during daytime and nighttime/overnight hours until the work is completed. Both areas are expected to re-open the week of December 17, 2018.

The temporary loading zone currently on Hendry Street north of Bay Street has been moved to Bay Street west of Dean Street. Delivery vehicles should use Dean Street north to Bay Street then left on Bay Street to the loading zone. (See purple loading zone shown on map below.)

We have been advised that vendors are parking and unloading on the newly restored sidewalk at the SW corner of Bay Street and Hendry Street. Please let them know parking on sidewalks is prohibited and they can be ticketed. Sidewalks are for pedestrians and are not built for vehicle weight.

This schedule is subject to change due to underground conditions and inclement weather.

For project information and updates visit the City's webpage at www.FMstreetscape.com/baystutility or contact the City's Public Information Consultant for this project, Cella Molnar & Associates, Inc. at 239-337-1071 or email to kmolnar@cella.cc.
